FORWARD

This document modifies the 2017 edition of the "Manual of Standard Specifications" and its amendments. All other provisions in the manual and in its amendments remain in full force and effect.

1. Delete the following sections.

Section 32 01 13.52 entitled Mastic Seal.

Section 32 01 13.68 entitled High Density Mineral Bond Seal.

The deletions are approved.

Attachment to Amendment 1

The deletion of the Specification Sections included in Amendment 1 for the 2017 Manual of Standard Specifications does not constitute or imply an endorsement or denunciation of any products that qualified under their requirements by the American Public Works Association or its Utah Chapter. Proprietary elements, or the potential thereof, necessitated their removal from the 2017 Manual of Standard Specifications.
